After having worked in the Supply Chain industry I have decided to switch careers and become a developer. I first learned how to make websites and how to code in JavaScript so I could start my freelancing activity. Later I took a course to become a blockchain developer and I've been participating in web3 hackathons since then.

STACK:

Language: TypeScript, JavaScript (ES6), HTML, CSS

Front: Gatsby, React, Sass

Back: NodeJS, Express, Nginx, PM2, JWT, Cron

Database: SQL (PostgreSQL) and NoSQL (MongoDB)

Web3: Solidity, web3.js, Truffle, Ganache

Tests: Jest, Mocha, Chai, Supertest

EXPERIENCE:

Freelance Web Developer (since 2019)

Database setup, server installation, client design and development.

I develop websites and applications for clients advising them on the right technologies to choose that match their quality requirements and cost goals.
